The ENCL’s 249th ACS meeting presentation schedules

*Bold font indicates the presenter.*

8. **Haesung Jung** and Young-Shin Jun, How Does the Ionic Strength Control the Nucleation of Manganese Oxide Nanoparticles at Quartz-Water Interfaces?, Special session on “Molecular-Scale Processes Controlling Reactivity at Mineral-Water Interfaces,” Wednesday, March, 25, 2015 from 2:00pm – 2:20pm, Room 712-Colorado Convention Center.

9. **Doyoon Kim**, Byeongdu Lee, Stavros Thomopoulos, and Young-Shin Jun, Nucleation and crystallization kinetics of initial apatite nanocrystal formation within biological templates,
Special symposium on “Elucidation of Mechanisms & Kinetics on Surfaces”, Wednesday, March, 25, 2015 from 5:10 PM - 5:30 PM, Colorado H - Marriott City Center Denver.
