It is our great pleasure to invite you to the 10th International Water Association (IWA) Membrane Technology Conference & Exhibition for Water and Wastewater Treatment and Reuse (IWA-MTC 2021), which will be held at Washington University in St. Louis from August 1 to 4, 2021.

St. Louis, where both 1904 World’s Fair and 1904 Summer Olympics were held, is a city with many places of interest. Its central location makes it easy to reach from both coasts with direct flights to many cities in the United States. In 1881, American Water Works Association was founded on the campus of Washington University in St. Louis and is now the largest organization of water supply professionals in the world.

We are excited to bring IWA-MTC to the United States for the first time and expect it to be a key platform for scientists and professionals in the membrane section of water research/industry to share the latest findings, exchange thoughts, and enlighten more ideas to advance membrane technologies to address water challenges.

We look forward to seeing you at the IWA-MTC2021 in St. Louis.

Key dates:
- Abstract deadline: December 15, 2020
- Registration open: January 15, 2021
- Notification of acceptance: March 1, 2021
- Full paper deadline: June 15, 2021
- Author registration deadline: June 1, 2021
- Early bird registration: May 1, 2021

Zhen (Jason) He  
Co-Chair, Washington University in St. Louis

Baoxia Mi  
Co-Chair, University of California Berkeley

Xia Huang  
Chair of IWA specialist group on Membrane Technology, Tsinghua University
