

CALL FOR PAPERS

ACS
ES&T | Engineering

A vital source for research
on environmental technology
and engineering

The American Chemical Society (ACS) is launching a new journal, *ACS ES&T Engineering*, as a member of the ES&T family of journals. The Journal aims to serve as an international forum for research and innovation around materials-, technologies-, processes-, data analytics- and engineering systems that: *manage, protect and remediate air, water and soil quality; treat wastes; recover resources; support effective decision-making within complex engineered systems; and are informed by mechanistic science and analytics that describe complex environmental engineering systems*. Papers that present novel, innovative advancements will be considered across the continuum from lab-based discovery to field-based application. The journal will be a focal point for novel and innovative engineering advances addressing important environmental challenges. The journal has just launched with the following inaugural editorial team.

Editor-in-Chief

Wonyong Choi

Pohang University of Science and Technology (POSTECH), Pohang, Korea

Associate Editors

Nancy G. Love

University of Michigan
Ann Arbor, MI, USA

Jaehong Kim

Yale University
New Haven, CT, USA

Jun Ma

Harbin Institute of Technology
Harbin, China

We invite you to be an early contributor to *ACS ES&T Engineering*. The journal's editorial team is strongly committed to making this high-quality journal the top venue for publishing the best research on environmental technology and engineering from the global community of environmental engineers. In particular, we welcome submissions from diverse disciplinary contributors who may not have previously submitted to the *ES&T* family of journals. *ACS ES&T Engineering* provides significant flexibility in the length and format of manuscripts (*see the website for details*) and the editorial team will ensure rapid processing: our goal is four weeks from submission to first decision.

ACS ES&T Engineering website : <https://pubs.acs.org/journal/aecco>

The journal website is open and will **start receiving submissions on June 2, 2020**. ASAP articles will be available by September 2020 and the first issue will be published in January 2021.
